Forward Looking Statement

This presentation may contain certain forward-looking statements. These forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements in this report include, but are not limited to:

Our expectations regarding our products and solutions, expectations related to cybersecurity and other threats, and our financial projections for future quarter and year end results. Our expectations and beliefs regarding these matters may not materialize, and actual results or events in the future are subject to risks and uncertainties that could cause actual results or events to differ materially from those projected. These risks include our ability to continue to develop platform capabilities and solutions; customer acceptance and purchase of our existing products and solutions and new products and solutions; the market for IT security continuing to develop; competition from other products and services; and general market, political, economic, and business conditions, including acts terrorism or war. These forward-looking statements are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission, including our Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 17, 2025. The forward-looking statements in this presentation are based on information available to Check Point as of the date hereof, and Check Point disclaims any obligation to update any forward-looking statements, except as required by law.

In this presentation and in our press release, which has been posted on our website, we present GAAP and non-GAAP results, along with a reconciliation of such results as well as the reasons for our presentation of non-GAAP information.

Business Outlook

Business Outlook Commentary

Healthy Pipeline

Our pipeline for the second quarter and second half of 2025 continues to build. We are very pleased with the customer response and the growing interest in the Infinity Platform, Quantum Force Appliances, and the additional technologies we have introduced

Stable Security Spending

While security spending is healthy it's not immune to budget concerns, history has shown that it remains somewhat insulated.

Macroeconomic Uncertainty

We don't believe we have seen any macroeconomic (Tariffs) induced behavior like cancelled projects or extended sales cycles from customers. However, we recognize these types of behavior usually become evident later in the quarter.

Prudent Forecast

In our second quarter business outlook, we believe it is prudent to address the potential for the macroeconomic induced change in customer behavior and the resulting extended sales cycles (Deal Slippage).

Business Outlook*

	Q2 2025	FY2025 (Remains Unchanged)			
Revenues	\$642M - \$682M	\$2,660M-\$2,760M			
Y/Y Growth	2% - 9%	4% - 8%			
Non-GAAP EPS**	\$2.32 - \$2.42	\$9.60- \$10.20			
Y/Y Growth	7% - 12%	5% - 11%			
GAAP EPS is Expected to be approximately	55 cents Less	\$2.00 Less			

^{*} Based on information available to Check Point Software as of April 23, 2025.

Modeling Commentary

As a reminder, during the second quarter of 2024 we had three eight-figure deals totaling \$130M. Two of the eight-figure deals were paid in advance and contributed a 2 percent benefit to calculated billings*** in the quarter.

^{***}Calculated Billings is a measure that we defined as total revenues recognized in accordance with GAAP plus the change in Total Deferred Revenues during the period

^{**}Non-GAAP excludes equity-based compensation charges, amortization of acquired intangibles and acquisition related expenses and their related tax effects. A reconciliation of non-GAAP to GAAP can be found in the appendix and our press release.
