

Broadcom Inc. Company Overview

June 2025

Safe Harbor Statement

This presentation contains forward-looking statements (including within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended, and Section 27A of the United States Securities Act of 1933, as amended) which are based on current expectations and beliefs of the management of Broadcom, as well as assumptions made by, and information currently available to, such management, current market trends and market conditions and involve risks and uncertainties, many of which are outside Broadcom's and management's control, and which may cause actual results to differ materially from those contained in forward-looking statements. Accordingly, you should not place undue reliance on such statements.

Broadcom's filings with the SEC, which you may obtain for free at the SEC's website at <https://www.sec.gov>, and the cautionary notes regarding forward-looking statements in its press release dated June 5, 2025, discuss some of the important risk factors that may affect Broadcom's forward-looking statements, business, results of operations and financial condition. Actual results may vary from the estimates provided or implied. Broadcom undertakes no intent or obligation to publicly update or revise any of the estimates and other forward-looking statements made in this presentation, whether as a result of new information, future events or otherwise, except as required by law.

Broadcom uses certain non-GAAP measures in this presentation including non-GAAP gross margin, non-GAAP adjusted EBITDA and non-GAAP free cash flow. Broadcom believes non-GAAP financial information provides additional insight into Broadcom's on-going performance. The non-GAAP measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the Appendix.

* Non-GAAP results reflect adjustments to the items presented in the table, as described in the respective captions. On July 12, 2024, Broadcom completed a ten-for-one forward stock split. All share amounts presented reflect the stock split.

** The non-GAAP adjustment for diluted shares excludes the impact of unrecognized stock-based compensation expense expected to be incurred in future periods, which would otherwise be assumed to be used to repurchase shares under the GAAP treasury stock method. For FY20 through FY22, the non-GAAP adjustment for diluted shares includes the impact of the mandatory convertible preferred stock, which was antidilutive on a GAAP basis.
